

Final Exam Days Schedule Grades 9-11

Important Notes

- Please note Monday June 14 and Tuesday June 15 are not color days; all non-fully virtual students with exams in the subjects scheduled are to report to school for their exams.
- Students need only to report to school for subjects in which they have a final exam to take (if a student completed a final project in lieu of an exam, or did not take a given subject this year, they do not need to report to school for that exam period).
- If a student needs to come in for only one exam but does not have transportation to come to school late or leave early, they will report to the Cafeteria for a monitored study period.
- Fully virtual students (marked as C or D in PowerSchool) will take their exams online at the same time as the in-person students. They will sign into a Zoom hosted by Dr. Moran during their scheduled exam periods (students with Chromebooks will also be monitored via GoGuardian by the Academic Office).
 - An email with the Zoom link will be shared 24 hours before the exam
- Fully virtual students (marked as C or D in PowerSchool) should report to school after the exams on the 14th to return all textbooks and clean out their lockers.
- **Students who are not fully virtual cannot opt to be virtual on an exam day; this will count as an unexcused absence, and they will be required to make up the exam in person.**
- **Any student who is currently failing a class and still has outstanding assignments to complete may be referred to special sessions of After School Academic Support from 11 AM - 1 PM on exam days.**
