OFFICE FOR ACADEMIC AFFAIRS

## Course Selection 2020-2021 Updated Timeline

*Due to the unprecedented circumstances in which we currently find ourselves, the timeline and process for online course registration has been modified. Please read the information below carefully.*

- At this time, the recommendation process is complete; teachers have already submitted course recommendations for their current students for next year via PowerSchool.
- **On-line course registration will begin Monday March 23, but access will be staggered by class level** so that the Office for Academic Affairs is not overwhelmed by questions, and so that inquiries and issues can be responded to in a timely manner. The schedule will be as follows:

Class	On-line Registration Window
Rising Sophomores (Class of 2023)	March 23 - March 25
Rising Seniors (Class of 2021)	March 26 - March 30
Rising Juniors (Class of 2022)	March 31 - April 2

- On the first day of each registration window, Dr. Moran will share via email a tutorial video with the appropriate class detailing how to complete online registration. He will also be available via Google Hangouts to meet with students who have questions.
- During the on-line registration window, students will have the ability to select on PowerSchool from all of the courses (both required and elective) for which they have met the necessary prerequisites. **A student will not be officially registered for a class until he or she has completed the on-line registration process through PowerSchool.**
- Refer to the [2020-2021 Course Catalog](#) for the most complete information about the course selection process, course descriptions, and prerequisites.
